EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Suzanne A. Sprunger on March 30, 2004.

The following is an examiner's statement of reasons for allowance:

The publication of Fanslow et al., US 2002/0042368 A1, made of record herewith demonstrates, see, e.g., Tables 1-5 and Examples 1-3, the utility of nucleic acid molecules claimed herein, as well as vectors, host cells and recombinant methods of making claimed herein where such nucleic acid molecules, vectors, host cells and methods of making may be used to produce polypeptides comprising the disclosed disintegrin domains of the ADAM-23/SVPH3-17 protease that will, according to page 1 of the instant specification, bind to integrin molecules at cell surfaces and, by such binding, alter integrin-mediated functions of cell-to-cell adhesion and cell-to-matrix adhesion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
